

Reader Spotlight

Carole

From an early age Carole understood that the heavenly, angelic messages and support she was experiencing was no coincidence. Cumulatively, these experiences expanded her confidence and belief system. They reassured her that there was more to life than what appeared to most people on the earth plane. A message that she wanted to share with others throughout her life.

For the past four decades Carole's career goal and joy has always been to help others. "When we get stuck we look for support. I love being the bridge to empower others."

Guided by what Carole describes as a lifelong combination of a rich spiritual and academic education and training; she uses her gift of mediumship and channeling along with the use of Angelic cards in her readings, to help her clients gain clarity with life's challenges, nurturing and bringing forth reassurance, confidence and balance on their life path.

Carole received her training and certification in mediumship, Usui Reiki and other healing modalities from Rev. Penny J. Weaver and her expertise in life coaching via her post-graduate school endorsements and certifications in school administration and supervision.

Continued education and training are an important part of Carole's life path. Throughout the years she has attended many workshops with Wayne Dyer, Doreen Virtue, Deepak Chopra, Louise Hay, Christian Northrup and Joe Dispenza to name a few.

Carole teaches a wide variety of spiritual and energy classes as well as meditation. She conducts workshops, lectures and schedules private parties.
